

Antimicrobially Active 4-Methyl-4-Aryl-2-Pentanols, Their Preparation And Use

Abstract of the Disclosure

5 Antimicrobially active 4-methyl-4-aryl-2-pentanols of the Formula 1 below, methods for the preparation of these compounds and their use as antimicrobial active compounds are described.

1

10 Surprisingly, compounds of the Formula 1 for which: R = hydrogen, hydroxyl, alkoxy group with up to 10 C atoms, straight-chain or branched, saturated or unsaturated alkyl with up to 10 C atoms, alkylthioether group with up to 10 C atoms, the alkylthioether group being bonded to the aromatic ring via a thioether bridge, fluorine, 15 chlorine, bromine, iodine, or alkyl with up to 10 C atoms that is interrupted by one or more oxygen and/or sulphur atoms, have proved to be antimicrobially active.
